**- INVITATION -**

On behalf of the organizing committee, I would like to take the opportunity to officially invite you to participate in the **10th Symposium of the International Society of Root Research (ISRR10)**, to be held at the **Yearim Hotel, Israel** on **8-12 July, 2018**.

Please be advised that this invitation does not hold the Symposium Secretariat or the Organizing Committee responsible for registration, travel, accommodation, or any other expenses, which might be incurred before, during or after the Symposium.

We look forward to welcoming you in Israel.

Sincerely yours,  
Deborah Taieb  
Registration & Tourism Services Manager

To whom it may concern

**Invitation letter for Dr. Prof' Gu Feng**

Prof. Gu Feng is currently a professor at the College of Resource and Environmental Science, China Agricultural University (CAU). Prof. Feng is a leading scientist in the field of plant phosphorus acquisition and root-mycorrhiza interactions. His field of research corresponds to the research I do at the Gilat Research Center and therefore, we had recently submitted a joint proposal to the Chinese-Israeli cooperation grant: ISF-NSFC. Prof' Feng is expected to visit Israel for the coming international society for root research conference (ISRR-10), 8-12 of July, Maale-Hahamisha (Jerusalem). We would like to seize this opportunity to meet, discuss, and develop potential future collaboration, given our common interest in the improvement of plant nutrition and of the use efficiency of phosphate fertilizers. Hence, I look forward to his visit in my lab between the 13<sup>th</sup> and the 17<sup>th</sup> of July (2018) following the ISRR-10 meeting. I understand that the China Agricultural University will sponsor Prof. Feng's visit.
